

Archerfield Airport

Brisbane's metropolitan airport

Archerfield Airport is a key corporate, commercial and general aviation hub just 11km from Brisbane CBD with excellent accessibility to city and fringe business areas, commercial precincts, hospitals/health facilities, university and educational centres, training and transport hubs.

The airport operates 24/7 all year, with no curfew or restrictions, in controlled airspace 7am to 5pm. 24 hour fuel is available.

Two sealed (10/28) and two unsealed (04/22) runways facilitate charter, executive/VIP business jets, university-supported flight training, aeromedical and emergency response aircraft, and general and commercial operations.

Fixed Base Operations provide excellent aviation services including aircraft management and hangarage for charter, GA and VIP operators.

Archerfield is 'HOME' to small jets, turboprops and rotary aircraft for corporate and executive/VIP, government, aeromedical, emergency services, flight training, defence and freight aviation operations; aircraft maintenance, sales and parts facilities, and a full complement of aviation businesses.

For information about corporate opportunities at Archerfield Airport, contact **Heather Mattes** at **07 3275 8000** or **0414 233 901**.
