

The Roulettes are coming!

The RAAF Roulettes aerobatic display team will be a highlight of Brisbane Open House at Archerfield Airport on **Saturday, October 7, 2017**.

The display starts at 10am and features world-class formation flying, with the Roulettes' Pilatus PC-9/A aircraft flying as close as 3m apart, up to speeds of 460km per hour, and as low as 80m.

The Roulettes comprise six aircraft and seven pilots and are internationally renowned for extraordinary airmanship. All the pilots are qualified RAAF flying instructors.

Brisbane Open House at the airport this year celebrates Archerfield's long history, its many achievements and future plans. Archerfield Airport was Brisbane's major airport in the 1930s and a key military airbase for Australia during the Pacific Campaign of World War 2. It is now Brisbane's major General Aviation airport and the State centre for flight training and corporate and aeromedical/emergency services.

The theme for Brisbane Open House at the airport is 'A rich past, an exciting future' – and tenants and visitors are encouraged to 'dress up' for the occasion in an aviation theme. Activities include guided bus tours and self-guided tours, hangar displays, and food and entertainment; while the Roulettes flying spectacular will contrast with a static display of veteran 'warbirds'.

Brisbane Open House at Archerfield Airport runs from 10am to 4pm on Saturday, October Admission is free and all are welcome.
